## About SHKE Communication

SHKE Communication Tech Co.,Ltd. (SHKE) is an industry leader in providing fiber optic products, engineering expertise and integrated services to the telecommunications industry since 2003. We manufacture, engineer and install the fiber optic products and equipments that communication providers need to provide high-speed voice, video and data services to their customers. Our extensive experience in both design and application crosses all markets, from Telco, Broadband and Wireless, to Electric Utility, OEM, Enterprise and Private Networks.

The products we manufactured included: Fiber Optical Patch Cord, Optical Cable, Fiber Connector, Adapter, Attenuator and Plastic Optical Fiber Patch Cord (POF). The products we designed included: Fiber Optical Patch Panel, Optical Distribution Frame and Fiber enclosure. For the enclosure, it is compliant with IP68 test. We are constantly expanding product offerings so that our customers have a leading edge in today's competitive market. Over the years we have garnered a reputation for consistently delivering innovative products. SHKE is recognized for its commitment to quality, service and dependability, and is known to provide the shortest lead time and quickest turnaround in the industry, earning itself the reputation of being the number one supplier for JIT (Just In Time) delivery.

### Data center system

MTP MPO Patch Cord	1
MPO/MTP-LC branch Patch Cord	2
GPX08X5	3
GPX09X7	4
GPX11X3	5
GPX11X3-3MD	6
GPX11X3-4MD	7

MP4	11
MP6	12

### Network cabinet /Distribution frame

Wall-mount Network Cabinet	23
Optical Distribution Frame	24

### Optical Fiber Patch Cord/adapter

SC Optical Patch Cord	27
LC Optical Patch Cord	28
ST Optical Patch Cord	29
FC Optical Patch Cord	30

### Fiber Optic Cable

Indoor Break Out Fiber Cable	37
Multi-core Fan-out Optical Fiber Cable	38
Simplex FO Cable	39
Ultra bend fiber	40
All Dielectric Self-supporting Aerial Cable	41
Central Bundle Armoured Loose Tube Cable	42
Stranded Loose Tube and Non-metallic Fiber Optic Cable	43
Figure 8 Steel Tape Armoured Fiber Optic Cable	44

### Fiber distribution box

Integrated fiber distribution box	13-15
Wall-mounted fiber distribution box	16-17

### Outdoor Optic Splice Cabinet

Terminal box	18-20
Outdoor Optic Splice Cabinet	21-22

### Outdoor connection equipment

OFAPC Fiber Optic Patch Panel	25
Outdoor waterproof connector	26

### Splitter/Adapter

Fused Biconical Taper Coupler	31
Planar Light-wave Circuit	32
Wavelength division multiplexer	33
Adapter	34-36

### Active network

Twisted Pair Patch Cord	45-46
Twisted Pair LAN Cable	47-48
Keystone Jack	49
Info Panel	50

## MPO/MTP Optical Patch Cord

Features	Application	
<ul style="list-style-type: none"> <li>● Provide 12 to 144 core fiber connections</li> <li>● Miniaturized using 4, 8, 12, and 24 MTP connectors to reduce failure and wiring space</li> <li>● The fiber optic connector is protected from pollution and damage by dust - proof, pressure - proof and tensile dust - proof cap</li> </ul>	<ul style="list-style-type: none"> <li>● Gigabit Ethernet</li> <li>● Telephone communication network</li> <li>● Optical fiber distribution system</li> <li>● O/E module interconnection</li> <li>● Active optical network transceiver</li> <li>● Industrial application and military</li> <li>● Parallel data exchange between Pc applications</li> </ul>	

MTP Optical Patch Cord

**Connection upgrade**  
Parallel fiber technology is adopted to transmit serial signals and parallel signals flexibly

**Spatial capacity**  
Multiple transmission bandwidth increases space utilization which provides wide space for processing high speed applications

**Faster internet speed**  
High-density multi-core fiber design meets 40G/100G fiber network communication

**Easy installation**  
Significantly reduce on-site installation time with high-density link system

### Specification

Model	Wavelength	Maximum insertion loss	Minimum insertion loss
MTP/PC(MM)	850nm/1300nm	0.35dB	30dB
MTP/APC(SM)	1310nm/1550nm	0.35dB	50dB
MPO/PC(MM)	850nm/1300nm	0.50dB	25dB
MPO/APC(SM)	1310nm/1550nm	0.75dB	50dB

## MTP-LC branch fiber patch cord

### Application

- Asynchronous transmission communication network
- Gigabit Ethernet
- Active optical network transceiver control
- Cable TV multimedia video application
- Data center wiring
- Telephone communication network
- O/E module interconnection
- Fiber switch interframe connection
- Industry, medical, or military

### Features

- LC duplex connector for low loss and stable signal transmission
- High density applications save wiring space
- Compliant with EC-61754-7 and TIA-604-5 standards
- 8 cores, 12 cores and 24 cores are available
- Cable with LSZH material, low smoke and halogen free flame retardant

### Specification

ConnectorA: MTP (Female) ConnectorB: LC (UPC) Duplex

Tensile Strength: 400N Compression(reversible): 750N/10CM

Operating temperature : -40°C~70°C Outer sheath:3.0mm

Storage temperature: -40°C~80°C Branch diameter: 2.0mm

Mtp-lc branch fiber optic jumper is a high-density multi-fiber optic cable and MTP connector combined with QSFP and 4xSFP+LR optical module for direct data transmission

### Parameter

Parameter	TEST CONDITION	VALUE(DB)	
		MULTIMODE	SINGLEMODE
Insertion Loss	0.85/1.3um or 1.31/1.55um	≤0.3	≤0.3
Return Loss	0.85/1.3um or 1.31/1.55um	≥20	≥30 (APC≥60)
Interchangeability	Connect Randomly	<0.2	<0.2
Vibration	5~50Hz, 1.5mm Amplitude	<0.1	<0.1
Tensile Strength	0~15Kgf (0.9mm Exception)	<0.1	<0.1
High Temperature	+85°C, During 100 Hours	<0.2	<0.2
Low Temperature	-40°C, During 100 Hours	<0.2	<0.2
Temperature Cycle	-40°C~+85°C, during 5 Cycles	<0.2	<0.2
Humidity	+25°C~+65°C, 93%R. H, 100 hours	<0.2	<0.2

## Fiber distribution box

Features	Application	
<ul style="list-style-type: none"> <li>● Push-pull design for easy wiring and management</li> <li>● 19" rack mount, Color black</li> <li>● Can meet 12, 24 - core fiber connection</li> <li>● The panel is fixed with a buckle, easy to disassemble and install, and secure to fix</li> </ul>	<ul style="list-style-type: none"> <li>● Optical Access Network</li> <li>● Data Processing Centers</li> <li>● Cable Television</li> <li>● Local Area Network</li> <li>● Coarse Wavelength Division Multiplexer</li> </ul>	

GPX09X5

GPX09X5

- The panel is made of cold-rolled steel  
Surface electrostatic spraying
- The welding wiring of the box body adopts separated structure
- Reliable cable fixing, stripping protection device
- Four  $\Phi$  20mm optical cable access holes for easy installation and maintenance

Splice Tray

- Splice Tray is made of molded plastic
- Layered structure, easy to operate
- The capacity of splice tray for 12 fibers
- Maximum capacity up to 24 cores

Winding wheel

- Winding wheel can be semicircle and rounding two ways of use  
small and simple

### Specification

NAME	Model	Maximum number of cores	Dimensions (WxDxH)
Box	GPX09X5-1U	24	483mm×204mm×1U
Box	GPX09X5-2U	48	483mm×204mm×2U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-25° C~+40° C
Storage Temperature	-25° C~+40° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa

## Fiber distribution box

Features	Application	
<ul style="list-style-type: none"> <li>● Guide rail design for easy drawing, wiring and management</li> <li>● 19" rack mount, Color black</li> <li>● Can meet 12, 24 - core fiber connection</li> <li>● The panel is fixed with a buckle, easy to disassemble and install, and secure to fix</li> </ul>	<ul style="list-style-type: none"> <li>● Optical Access Network</li> <li>● Data Processing Centers</li> <li>● Cable Television</li> <li>● Local Area Network</li> <li>● Coarse Wavelength Division Multiplexer</li> </ul>	

GPX09X7

GPX09X7

- The panel is made of cold-rolled steel  
Surface electrostatic spraying
- The welding wiring of the box body adopts separated structure
- Reliable cable fixing, stripping protection device
- Four  $\Phi$  20mm optical cable access holes for easy installation and maintenance

Adapter panel

- The adapter panel is made of cold-rolled steel
- Various adapters such as FC, SC, ST, LC (SC type) and DIN (FC type) can be installed according to the interface type.

Splice Tray

- Splice Tray is made of molded plastic
- Layered structure, easy to operate
- The capacity of splice tray for 12 fibers
- Maximum capacity up to 24 cores

Winding wheel

- Winding wheel can be semicircle and rounding two ways of use  
small and simple

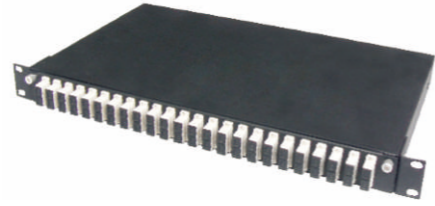

### Specification

NAME	Model	Maximum number of cores	Dimensions (WxDxH)

## High density MTP/MPO fiber wiring system GPX11X3-3MD

Features	Application	
<ul style="list-style-type: none"> <li>● Push-pull design for easy wiring and management</li> <li>● 19" rack mount, Color black</li> <li>● Can meet 12, 24 - core fiber connection</li> <li>● The fixed panel can be removed and modularized. The 1U can accommodate up to 4 module boxes or adapter panel strips.</li> </ul>	<ul style="list-style-type: none"> <li>● Optical Access Network</li> <li>● Data Processing Centers</li> <li>● Cable Television</li> <li>● Local Area Network</li> <li>● Coarse Wavelength Division Multiplexer</li> </ul>	

GPX11X3-3MD

High density MTP wiring management

Used for optical fiber fusion, optical fiber storage, jumper connection

Fixed panel bar

- Fixed panel strip made of cold rolled steel sheet material
- LGX module box(MPB3) or adapter panel bar can be installed according to the interface type
- The fixing panel is screwed and fixed on the box and can be removed

Splice Tray

- Splice Tray is made of molded plastic
- Layered structure, easy to operate
- The capacity of splice tray for 12 fibers
- Maximum capacity up to 24 cores

Winding wheel

- Winding wheel can be semicircle and rounding two ways of use
- small and simple

### Specification

NAME	Model	Maximum number of cores	Dimensions (WxDxH)
Box	GPX11X3-3MD-1U	72	483mm×373mm×1U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-40° C~+60° C
Storage Temperature	-40° C~+60° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa

## High density MTP/MPO fiber wiring system GPX11X3-4MD

Features	Application	
<ul style="list-style-type: none"> <li>● Push-pull design for easy wiring and management</li> <li>● 19" rack mount, Color black</li> <li>● Can meet 12, 24 - core fiber connection</li> <li>● The fixed panel can be removed and modularized. The 1U can accommodate up to 4 module boxes or adapter panel strips.</li> </ul>	<ul style="list-style-type: none"> <li>● Optical Access Network</li> <li>● Data Processing Centers</li> <li>● Cable Television</li> <li>● Local Area Network</li> <li>● Coarse Wavelength Division Multiplexer</li> </ul>	 <p><b>GPX11X3-4MD</b></p>

High density MTP wiring management

MPBX3

Used for optical fiber fusion, optical fiber storage, jumper connection

Fixed panel bar

Splice Tray

Winding wheel

- Fixed panel strip made of cold rolled steel sheet material
- modules box or adapter panel bar can be installed according to the interface type
- The fixing panel is screwed and fixed on the box and can be removed
- Splice Tray is made of molded plastic
- Layered structure, easy to operate
- The capacity of splice tray for 12 fibers
- Maximum capacity up to 24 cores
- Winding wheel can be semicircle and rounding two ways of use small and simple

### Specification

NAME	Model	Maximum number of cores	Dimensions (WxDxH)
Box	GPX11X3-4MD-1U	96	483mm×373mm×1U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-40° C~+60° C
Storage Temperature	-40° C~+60° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa

## High density MTP/MPO fiber wiring system MP1

Application	Features	
<ul style="list-style-type: none"> <li>● Optical Access Network (OAN)</li> <li>● Data Processing Centers</li> <li>● Cable Television(CATV)</li> <li>● Local Area Network(LAN)</li> <li>● Coarse Wavelength Division Multiplexer</li> </ul>	<ul style="list-style-type: none"> <li>● Modular design, up to 3 module boxes Used in the wiring box</li> <li>● 19" rack mount</li> <li>● Module comes up to 24 LC or 12 SC adapter ports and switch to MTP/MPO connection</li> <li>● The panel is made of cold rolled steel plate</li> </ul>	 <p><b>MP1</b></p>

MTP/MPO-24LC Modules

MTP/MPO-12SC Modules

Baffle Panel

### Module box structure features

- The module box can be loaded with 12 LC adapters or 6 SC adapters.
- It is made of cold-rolled steel plate, with a pull button fixing device, and the surface is coated with fine sand veins.
- MTP-LC(MM)wavelength850nm/1300nm,Maximum insertion loss0.50dB
- MTP-LC(SM)wavelength1310nm/1550nm,Maximum insertion loss1.30dB
- MTP-SC(MM)wavelength850nm/1300nm,Maximum insertion loss0.50dB
- MTP-SC(SM)wavelength1310nm/1550nm,Maximum insertion loss1.30dB

MPB1

### Specification

NAME	Model	Maximum number of cores	Dimensions (WxDxH)
Box	MP1-1U	72	483mm×260mm×1U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-20° C~+55° C
Storage Temperature	-20° C~+60° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa

## High density MTP/MPO fiber wiring system MP2

### Features

- Modular design, 1U height can accommodate up to 5 module boxes. The 2U height can accommodate up to 12 module boxes.
- Suitable for 19 inch standard rack with front buckle.
- Each module box can accommodate 24LC or 12 SC type optical fiber connectors and transfer to MTP/MPO standard.
- The panel is made of cold-rolled steel with a thin black surface Sand grain electrostatic spraying treatment
- Support RJ45 module

MTP/MPO-12SC Modules

MTP/MPO-24LC Modules

MP2-1U

MP2-2U

Realize photoelectric hybrid application

RJ45 Module

Baffle Panel

MTP Panel

### High density panel

2U Maximum 288 core

Increase the 20% density

### High density module box

MPB2

MPB1

Same core area reduced

Increase the 40% density

### Specification

NAME	Model	Maximum number of cores	Dimensions (WxDxH)
Box	MP2-1U	120	483mm×335mm×1U
Box	MP2-2U	288	483mm×335mm×2U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-20° C~+55° C
Storage Temperature	-20° C~+60° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa

## High density MTP/MPO fiber wiring system MP3

Splice Tray

Splice Tray is made of molded plastic Layered structure, easy to operate The capacity of splice tray for 12 fibers

Winding wheel

Winding wheel can be semicircle and rounding two ways of use small and simple

Optical cable fixed column

Guide

It's easier to pull Flexible configuration Fast installation

Adapter Panel bar

24 core LC (quad)

12 core SC (duplex)

12 core LC (duplex)

LGX Modular(MPB3)

MTP/MPO-LC Modules

MTP/MPO-SC Modules

8core Sc (simplex)

MTP/MPO Panel

MP3-1U High density MTP wiring management

MP3-4U Used for optical fiber fusion, optical fiber storage, jumper connection

### Features

- Modular design, up to 3 module boxes Used in the wiring box
- 19'rack mount
- The pull-out design is easy to install the adapter panel or the LGX module
- The panel is made of cold rolled steel plate

### Specification

NAME	Model	Maximum number of cores	Dimensions (WxDxH)
Box	MP3-1U	72	483mm×373mm×1U
Box	MP3-4U	288	483mm×373mm×4U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-40° C~+60° C
Storage Temperature	-40° C~+60° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa

## Ultra high density MTP/MPO fiber wiring system MP4

Features	Application	
<ul style="list-style-type: none"> <li>The maximum capacity of the 1U corner rack consists of 192 core optical fibers</li> <li>19" rack mount, Color black</li> <li>The panel is made of cold-rolled steel</li> <li>The front panel of the distribution frame has radian, which is convenient for optical cable transmission</li> </ul>	<ul style="list-style-type: none"> <li>Data communication Applications</li> <li>Data Centre infrastructure</li> <li>Fiber Channel</li> <li>Emerging 40 and 100Gbps Protocols compatible</li> </ul>	 <p><b>MP4A-1U(Bevel Angle)</b></p>

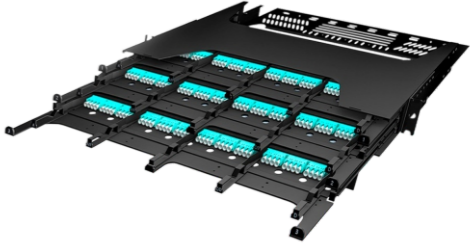

### Specification

NAME	Model	Maximum number of cores	Dimensions (WxDxH)
Box	MP4A-1U	192	483mm×454mm×1U
Box	MP4-1U	192	483mm×416mm×1U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-10°C~+60°C
Storage Temperature	-20°C~+60°C
Relative Humidity	≤85%(+30 °C)
Air Pressure	70kPa~106kPa
Dimensions (W x D x H)	483mm×454mm×1U

## Ultra high density MTP/MPO fiber wiring system MP6

Features	Application	
<ul style="list-style-type: none"> <li>The maximum capacity of the 1U corner rack consists of 192 core optical fibers</li> <li>19" rack mount, Color black</li> <li>The panel is made of cold-rolled steel</li> <li>The front panel of the distribution frame has radian, which is convenient for optical cable transmission</li> </ul>	<ul style="list-style-type: none"> <li>Data communication Applications</li> <li>Data Centre infrastructure</li> <li>Fiber Channel</li> <li>Emerging 40 and 100Gbps Protocols compatible</li> </ul>	 <p><b>MP6-1U</b></p>

Patch Panel	MP6-1U	144	483mm×350mm×1U
Patch Panel	MP6-2U	288	483mm×350mm×2U
Patch Panel	MP6-4U	576	483mm×350mm×4U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-20° C~+55° C
Storage Temperature	-20° C~+60° C
Relative Humidity	≤85% (+30 ° C)
Air Pressure	70kPa~106kPa

## Integrated fiber distribution box

Features	Application	
<ul style="list-style-type: none"> <li>● It can install 1-8 fused fiber modules</li> <li>● 19" rack mount</li> <li>● Can meet the capacity of 12、24、48、72、96 cores</li> <li>● The left side is equipped with rational wire board, optical fiber arrangement layered entry and exit, convenient operation.</li> </ul>	<ul style="list-style-type: none"> <li>● Telecom room</li> <li>● Substation</li> <li>● Optical fiber equipment designed for digital substation</li> </ul>	 <p style="text-align: center;"><b>GPX07C3</b></p>

High quality cold rolled steel plate, surface electrostatic sprayin  
The thickness of the box is 1.2mm, ensuring the quality of transportation, installation and use  
Withstand voltage:  $\geq 3KV$  (DC) /Lm i n no breakdown, no arcing  
insulation resistance:  $\geq 1000M\Omega /500V$  (DC)

Dimensions (W x D x H): 297mm\*180mm\*25mm  
Up to 12-core fiber  
Adapter conversion type: ST、SC、FC、LC  
The box material adopts flame retardant ABS, and the flame retardant performance conforms to YD/T778

### Specifications

Name	Model size	Maximum core number	Number of cores	Flange number	Dimensions (W x D x H)

Dimensions (W x D x H): 297mm\*180mm\*25mm  
Up to 24-core fiber  
Adapter conversion type: ST, SC, FC, LC

The box material adopts flame retardant ABS, and the flame retardant performance conforms to YD/T778

Single-sided outlet design for easy access and management of equipment  
Support multiple management methods (Telnet, local serial port, Web,SNMP, OAM) for easy login management

### specifications

Name	Maximum core number	Number of cores	Flange number	Dimensions (W x D x H)
Patch panel-6U	72	6	72	482x280x265

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-25° C~+40° C
Storage Temperature	-25° C~+40° C
Relative Humidity	$\leq 85\%$ (+30° C)
Air Pressure	70kPa~106kPa

## Wall-mounted fiber optic distribution box

Features	Application	
<ul style="list-style-type: none"> <li>● Double door opening with anti-theft lock for easy installation and maintenance</li> <li>● Wall mounting method, tight structure design</li> <li>● Can meet 12, 24, 48 core fiber connection</li> </ul> <p>The panel is fixed with a buckle, easy to disassemble and install, and secure to fix</p>	<ul style="list-style-type: none"> <li>● Optical communication system</li> <li>● FTTH</li> <li>● Wide Area Network</li> <li>● Local area network</li> <li>● Cable TV network</li> </ul>	

GPX10W1

GPX10W1

- The panel is made of cold-rolled steel  
Surface electrostatic spraying
- The welding wiring of the box body adopts separated structure
- Reliable cable fixing, stripping protection device
- Six  $\Phi 35mm$  optical cable access holes for easy installation and maintenance

Adapter panel

- The adapter panel is made of cold-rolled steel
- Various adapters such as FC, SC, ST, LC (SC type) and DIN (FC type) can be installed according to the interface type

Splice Tray

- Splice Tray is made of molded plastic
- Layered structure, easy to operate
- The capacity of splice tray for 12 fibers
- Maximum capacity up to 24 cores

Winding wheel

- Winding wheel can be semicircle and rounding two ways of use
- small and simple

### Specification

GPX17W1

- The panel is made of cold-rolled steel  
Surface electrostatic spraying
- The welding wiring of the box body adopts separated structure
- Reliable cable fixing, stripping protection device
- Four  $\Phi$  22mm optical cable access holes for easy installation and maintenance

Adapter panel

- The adapter panel is made of cold-rolled steel
- Various adapters such as FC, SC, ST, LC (SC type) and DIN (FC type) can be installed according to the interface type.

Splice Tray

- Splice Tray is made of molded plastic
- Layered structure, easy to operate
- The capacity of splice tray for 12 fibers
- Maximum capacity up to 24 cores
- Good sealing, easy to open repeatedly

### Specification

ITEM	CHARACTERISTICS
Operation Temperature	-25° C~+40° C
Storage Temperature	-25° C~+40° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa
GPX17W1 Dimensions (W x D x H)	230mm×180mm×55mm

## Multifunctional optical cable terminal box

### Application

- Intelligent broadband
- Security monitoring system
- Broadband cable TV
- Fiber to home system
- Wide Area Network
- Local area network
- Metropolitan area network

STB1

### Features

- Made of high quality ABS+PC material, high temperature resistance, uv radiation resistance, no matter indoor or outdoor, can guarantee life
- Double-layer structure design, that is, cable connector box and optical branch terminal box
- Support T - type network topology structure, suitable for relatively complex cross - node environment construction
- Support 1:4, 1:8, 1:16 and other kinds of PLC optical splitter to achieve different capacity of port expansion

### Specification

ITEM	CHARACTERISTICS
Operation Temperature	-40° C~+70° C
Storage Temperature	-40° C~+70° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa
Protection level	Ip55
STB1 Dimensions (W x D x H)	220mm×280mm×85mm

## Multifunctional optical cable terminal box

### Application

- Intelligent broadband
- Security monitoring system
- Broadband cable TV
- Fiber to home system
- Wide Area Network
- Local area network
- Metropolitan area network

STB2

### Features

- Made of high quality ABS+PC material, high temperature resistance, uv radiation resistance, no matter indoor or outdoor, can guarantee life
- Double-layer structure design, that is, cable connector box and optical branch terminal box
- Support T - type network topology structure, suitable for relatively complex cross - node environment construction
- Support 1:4, 1:8, 1:16 and other kinds of PLC optical splitter to achieve different capacity of port expansion

1x8PLC includes SC head distributor box

### Specification

ITEM	CHARACTERISTICS
Operation Temperature	-40° C~+70° C
Storage Temperature	-40° C~+70° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa
Protection level	IP55
STB2 Dimensions (W x D x H)	302mm×236mm×112mm

## Multifunctional optical cable terminal box

### Application

- Intelligent broadband
- Security monitoring system
- Broadband cable TV
- Fiber to home system
- Wide Area Network
- Local area network
- Metropolitan area network

ACF005

### Features

- Made of high quality ABS+PC material, high temperature resistance, uv radiation resistance, no matter indoor or outdoor, can guarantee life
- Double-layer structure design, that is, cable connector box and optical branch terminal box
- Support T - type network topology structure, suitable for relatively complex cross - node environment construction
- Support 1:4, 1:8, 1:16 and other kinds of PLC optical splitter to achieve different capacity of port expansion

### Specification

ITEM	CHARACTERISTICS
Operation Temperature	-40° C~+70° C
Storage Temperature	-40° C~+70° C
Relative Humidity	≤85% (+30° C)
Air Pressure	70kPa~106kPa
Protection level	IP55
ACF-005-12 Dimensions (W x D x H)	225mm×200mm×65mm
ACF-005-24 Dimensions (W x D x H)	238mm×318mm×100mm

## Outdoor Optic Splice Cabinet

### Application

- Intelligent broadband
- Security monitoring system
- Broadband cable TV
- Fiber to home system
- Wide Area Network
- Local area network
- Metropolitan area network

### Features

- The cabinet is shaped from high strength glass-fiber polyester(SMC) with excellent performance of mechanical durability, anti-erosion, aging resistance. And it could resistance severe climatic changes and serious working environment with long life over than 20 years
- The cabinet has good function of thermal insulation and hydrometeor resistance
- Safety and reliability, lock at three points with good function of theft-proo
- Scientific and reasonable structure sufficiently ensures the seal- ing for the cabinet, and prevents any foreign materials

GOF12X1-288

Operating temperature  
-40°C~+60°C

Relative humidity  
≤95% (+40°C)

Air pressure  
70Kpa~106Kpa

Protection grade  
IP:65

### Specification

Model	Dimensions (W x D x H)	Capacity
GOF12X1-288	1450mm×750mm×360mm	288core

## Outdoor Optic Splice Cabinet

## Wall-mount Network Cabine/Network Cabine

### Application

- Computer network engineering, intelligent building wiring
- Electric Power Traffic Monitoring Center
- Community intelligent monitoring center
- Communications computer center broadcasting system
- Campus network center
- Enterprise network center
- Data processing center
- Industrial, medical or military network

### Features

- Made of High quality Cold rolled steel(SPCC)
- Tempered glass front door, Degreasing, picking, Phosphating and static powder painting
- Panels and doors can be added/removed or changed as necessary
- The top and bottom cable channels can be closed, and the bottom cable channels size can be adjusted as requirement
- Special PDU system can be equipped to stabilize power supply and prevent surge damage equipment

Operating temperature  
-40°C~+60°C

Relative humidity  
≤95% (+40°C)

Air pressure  
70Kpa~106Kpa

## Optical Distribution Frame

### Application

- Computer network engineering, intelligent building wiring
- Electric Power Traffic Monitoring Center
- Community intelligent monitoring center
- Communications computer center broadcasting system
- Campus network center
- Enterprise network center
- Data processing center
- Industrial, medical or military network

### Features

- The box is made of cold rolled steel sheet, with electrostatic spraying
- Modular structure, can adjust the fusion and frame units, snap-in installation for various kinds of adapters, such as FC, SC, ST, etc.
- There is 30° angle between adapters and connection units, which can make sure no damage of fiber while bending the patch cords, and also avoid laser burning eyes
- Use variety fiber entry units, to make the management of patch cords scientization
- It is with the reliable equipment of optic fiber stripping, protecting, fixing and grounding

Operating temperature  
-40°C~+60°C

Relative humidity  
≤95% (+40°C)

Air pressure  
70Kpa~106Kpa

GPX11F1

### Specification

Model	Dimensions (W x D x H)	Capacity
GPX11F1-A	2000mm×840mm×300mm	504core

## OFAPC Fiber Optic Patch Panel

### Application

- Railway and shipborne surveillance systems
- Mine and oil field communication systems
- Industrial applications
- Intelligent substation control system
- Aerospace communication system
- Military field communication system
- Remote communication base stations and communication towers

### Features

- The box is made of high-quality cold-rolled steel plates
- Suitable for standard installation in 19-inch rack
- The mechanical thread locking mechanism ensures long-term stable connection
- Equipped with guide positioning pin, can be blinded with one hand plug in, quick installation
- The commonly used connector types at the B end of the Patch Cord are LC, SC, FC, ST, according to the usage requirements. Request for customization

Patch Cord inside the box

### Common usage

### Specifications

Name	Maximum number of cores	Dimensions (W x D x H)
OFAPC	24	483mm x 154mm x 1U

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-25° C ~ +40° C
Storage Temperature	-25° C ~ +40° C
Relative Humidity	≤ 85% (+30° C)
Air Pressure	70kPa ~ 106kPa

## Outdoor waterproof connector

### Application

- Railway and shipborne surveillance systems
- Mine and oil field communication systems
- Industrial applications
- Intelligent substation control system
- Aerospace communication system
- Military field communication system
- Remote communication base stations and communication towers

### Features

- Sealed design, dustproof and waterproof, The protection level can reach Ip67
- Automatic locking device, suitable for high-frequency vibration environments
- Made of PEI material, environmentally friendly, flame retardant, acid and alkali resistant,
- High and low temperature resistant, UV resistant
- The number of optical fiber cores is 2 to 24, which can be customized as required.

### Specifications

ITEM	CHARACTERISTICS
Plug pull	≥ 300N (main cable)
Protection level	IP67
Insertion loss	Single mode: ≤ 0.7dB Multi mode: ≤ 0.6dB
Return loss	Single mode: ≥ 50dB Multi mode: ≥ 25dB

### Parameter

ITEM	CHARACTERISTICS
Operation Temperature	-25° C ~ +80° C
Storage Temperature	-25° C ~ +40° C
Relative Humidity	≤ 85% (+30° C)
Air Pressure	70kPa ~ 106kPa

## SC Optical Patch Cord

### Application

- Local area network (LAN)
- Data processing network
- Wide area network
- Industry, medicine, or military
- Cable TV
- Video
- Active device terminal
- Installed in advance
- Communication network

### Features

- Adopt standard push-pull design, quick installation and unloading
- Support for single or double connector
- Meet Telcordia GR-326-CORE specifications
- Single mode or multi mode available
- The outer diameter of the cable is: 3.0mm, 2.0mm or 0.9mm

New ceramic core

High precision ceramic core is adopted to improve the speed and flexibility of optical transmission and the service life is longer

## LC Optical Patch Cord

### Application

- Local area network (LAN)
- Data processing network
- Wide area network
- Industry, medicine, or military
- Cable TV
- Video
- Active device terminal
- Installed in advance
- Communication network

### Features

- Push - pull RJ-45 lock structure, fast connection and removal
- Support for single or double connector
- Meet Telcordia GR-326-CORE specifications
- Single mode or multi mode available
- The outer diameter of the cable is: 3.0mm, 2.0mm or 0.9mm

New ceramic core

High precision ceramic core is adopted to improve the speed and flexibility of optical transmission and the service life is longer

### Parameter

## FC Optical Patch Cord

### Application

- Local area network (LAN)
- Data processing network
- Wide area network
- Industry, medicine, or military
- Cable TV
- Video
- Active device terminal
- Installed in advance
- Communication network

### Features

- Single or dual core and multi-core fittings in standard and custom configurations
- Standard threaded connection allows for repeatable, low loss connections
- Meet Telcordia GR-326-CORE specifications
- Single piece construction and pull-proof design
- Free-floating ceramic core

### New ceramic core

High precision ceramic core is adopted to improve the speed and flexibility of optical transmission and the service life is longer

### Parameter

Parameter	TEST CONDITION	VALUE(DB)	
		MULTIMODE	SINGLEMODE
Insertion Loss	0.85/1.3um or 1.31/1.55um	≤0.3	≤0.3

Additional loss	≤0.1			
Return loss	≥50			
Directionality	1x2 2x2			≥65 ≥55
Operating temperature	-40℃ ~ +85℃			
Storage humidity	30~85%			

## LC Adapter Series

### Application

- Gigabit Ethernet
- Active device
- Multimedia
- Video
- Communication network
- Subway network
- Data processing network
- Building wiring
- Industry, medicine, or military

### Features

- Compact design
- Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
- High precision butt
- Low insertion return loss
- Color and polarity distinction

## SC Adapter Series

### Application

- Cable TV
- Local area network
- Communication network
- Subway network
- Data processing network
- Industry, medicine, or military

### Features

- Compact design
- Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
- High precision butt
- Low insertion return loss
- Color and polarity distinction

## ST Adapter Series

### Application

- Building wiring
- Telecommunications network
- Subway network
- Local area network
- Data processing network
- Instrument and meter

### Features

- Compact design
- Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
- High precision butt
- Low insertion return loss
- Metal is corrosion resistant

## FC Adapter Series

Application	Features
● Cable TV	● Compact design
● Local area network	● Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
● Communication network	● High precision butt
● Subway network	● Low insertion return loss
● Data processing network	● Metal is corrosion resistant
● Industry, medicine, or military	

## MTRJ Adapter Series

Application	Features
● Gigabit Ethernet	● Compact design
● Active device	● Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
● Cable TV	● High precision butt
● Video	● Low insertion return loss
● Data processing network	● Color and polarity distinction
● Building wiring	
● Industry, medicine, or military	

## MPO/MTP Adapter Series

Application	Features
● Cable TV	● Compact design
● Local area network	● Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
● Communication network	● High precision butt
● Subway network	● Low insertion return loss
● Data processing network	● Color and polarity distinction
● Industry, medicine, or military	

## DIN Adapter Series

Application	Features
● Cable TV	● Compact design
● Local area network	● Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
● Communication network	● High precision butt
● Subway network	● Low insertion return loss
● Data processing network	● Metal is corrosion resistant
● Industry, medicine, or military	

## LC Adapter Series

Application	Features
● Cable TV	● Compact design
● Local area network	● Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
● Communication network	● High precision butt
● Subway network	● Low insertion return loss
● Data processing network	● Temporary repair or connection
● Industry, medicine, or military	

## Bare fiber adapter

Application	Features
● Building wiring	● Compact design
● Communication network	● Meet Telcordia, ANSI, TIA/EIA, NTT and JIS standards
● Subway network	● High precision butt
● local area network	● Low insertion return loss
● Data processing network	● Can connect different fiber jumper interfaces
● Industry, medicine, or military	

## Indoor Break Out Fiber Cable

### Application

- Standard horizontal wiring, vertical wiring in buildings
- Standard core can be directly connected to the connector
- Used for tail fiber and jumper wire

Stable winding of SZ shape  
Each group of cables has its own separate outer cover and enhancement elements

### Features

- Easy splicing, suitable for large capacity data transmission
- Flame retardant (or non-retardant) performance
- The color of the outer sheath depends on the type of fiber (indoor use), it is recommended for outdoor use in black, or it can be produced according to user-defined colors
- To meet the needs of the market and users

### Mechanical Characteristics

ITEM	CHARACTERISTICS
Riser UL/cUL Rated	Type OFNR/OFN FT4
Plenum UL/cUL Rated	Type OFNP/OFN FT6
Jacket Material	PVC or LSZH

Operation Temperature  
-40°C~+65°C

Storage Temperature  
-40°C~+65°C

### Parameter

Fiber Count	Nominal Outer Diameter mm	Nominal Weight kg/km	Min. Bend Radius		Max. Tensile Strength		Max. Crush Resistance N/100mm <sup>2</sup>
			Loaded	Installed	Short Term	Long Term	
16	13.0	170	20D	10D	1000	300	1000
24	15.5	180	20D	10D	1000	300	1000
36	19.0	210	20D	10D	1300	400	1000
48	20.0	250	20D	10D	1300	400	1000
72	21.0	300	20D	10D	1300	400	1000
96	25.0	460	20D	10D	1300	400	1000

## Multi-core Fan-out Optical Fiber Cable

### Application

- Indoor horizontal and vertical wiring
- Used for equipment tail cable and movable connecting line and jumper wire

Up to 24 single core cables  
Each group of cables has its own separate outer cover and enhancement elements

### Features

- The chipset ranges from 2 to 8 and can be customized to customer requirements
- The color of the outer sheath depends on the type of fiber (indoor use), it is recommended for outdoor use in black, or it can be produced according to user-defined colors
- Each single fiber cable contains aramid fiber reinforcement and tight sleeve buffer design, which can prevent damage caused by environmental and mechanical stress

### Mechanical Characteristics

ITEM	CHARACTERISTICS
Riser UL/cUL Rated	Type OFNR/OFN FT4
Plenum UL/cUL Rated	Type OFNP/OFN FT6
Jacket Material	PVC or LSZH

Operation Temperature

## Simplex FO Cable

### Application

- Cable connection between buildings
- Indoor wall, roof, mezzanine and conduit connections
- Communication equipment tail cable and movable connection line, jumper wire

### Features

- Easy to connect, suitable for large capacity data transmission
- Flame retardant (or non-retardant) performance
- Straight cable can be directly connected without the use of connector box
- Suitable for construction and maintenance

### Mechanical Characteristics

ITEM	CHARACTERISTICS
Riser UL/cUL Rated	Type OFNR/OFN FT4
Plenum UL/cUL Rated	Type OFNP/OFN FT6
Jacket Material	PVC or LSZH

Operation Temperature  
-40°C~+65°C

Storage Temperature  
-40°C~+65°C

### Parameter

Fiber Count	Nominal Outer Diameter mm	Nominal Weight kg/km	Min. Bend Radius		Max. Tensile Strength		Max. Crush Resistance N/100mm <sup>2</sup>
			Loaded	Installed	Short Term	Long Term	
1	1.6	2.9	20D	10D	80	40	500
1	1.8	3.2	20D	10D	80	40	500
1	2.0	3.5	20D	10D	100	60	500

1	3.0	6.8	20D	10D	150	80	500

## Ultra bend fiber cable

### Application

- Communication network wiring engineering
- Telecommunications application

It has excellent macro bending performance under extreme bending radius (5mm)  
 Macrobend loss and high safety test pressure(200kpsi)  
 Solid silicon structured fiber  
 Tight cladding diameter 125 +0.4um, cladding non-circularity ≤0.3%  
 Tight core/cladding concentricity ≤0.3um, DLPC9 coating

### Geometric features

Item	Parameter
Mode field diameter	8.6-9.6um
Core concentricity error	≤0.5um
cladding non-circularity	≤1%
Coating-cladding concentricity error	≤12.5um

### Features

- It can be matched with miniaturized optical devices
- Support high power optical device applications
- Ensures tensile strength, provides low connector loss, and is easily peeled off, consistent with common jumper cable retention applications
- Special optical fiber connector is needed

Operation Temperature  
-40°C~+65°C

Storage Temperature  
-40°C~+65°C

### Parameter

Fiber Count	Nominal Outer Diameter mm	Nominal Weight kg/km	Min. Bend Radius		Max. Tensile Strength		Max. Crush Resistance N/100mm <sup>2</sup>

## Stranded Loose Tube and Non-metallic Fiber Optic Cable

### Laying method

- Overhead, pipeline

### Features

- Water-blocking structure on all sections ensure of good waterproof and moisture resistant
- Central strength member adopts a higher young modulus of glass fiber reinforced plastic rods (FRP)
- The non-metallic structure of the optical cable is light in weight, easy to install, has good anti-electromagnetic performance, and can be applied to electric power systems and multiple lightning areas.
- Guarantee the life of the cable over 30 years
- Accurate fiber excess length ensures good mechanical and temperature performance
- Filling special oil paste with loose tube to protect fiber

Operation Temperature  
-40°C~+65°C

Storage Temperature  
-40°C~+65°C

### Parameter

Fiber Count	Nominal Outer Diameter mm	Tube number PCS	Nominal Weight kg/km	Min. Bend Radius		Max. Tensile Strength		Max. Crush Resistance	
				Loaded	Installed	Short Term	Long Term	N/100mm <sup>2</sup>

## Figure 8 Steel Tape Armored Fiber Optic Cable

### Laying method

- Self-supporting overhead

### Application

- Long distance and intermediation communication

### Features

- 100% cable core filling
- Special tightening design to prevent loosening of the loose tube
- Single wire center reinforcement
- Accurate fiber excess length ensures good mechanical and temperature performance
- Steel wire strands have extremely high tensile strength, easy to lay by self-supporting overhead, and low installation cost
- The loose tube material has good hydrolysis resistance and high strength. The tube is filled with special grease to protect the fiber

Operation Temperature  
-40°C~+65°C

Storage Temperature  
-40°C~+65°C

## All Dielectric Self-supporting Aerial Cable

### Laying method

- Self-support aerial installation

### Features

- Compact design prevents cable from loosening
- Light weight, small diameter, reducing the load on the tower
- The maximum span is over 1000 meters
- Guarantee the life of the cable over 30 years
- Accurately control the fiber length, ensure that the optical cable has good mechanical characteristics and temperature characteristics
- The special ointment for filling loose sleeve is used to protect the fiber

Operation Temperature  
-40°C~+65°C

Storage Temperature  
-40°C~+65°C

Uv protection

Water proof

Mildew proof

### Parameter

Model	Core	Standard Outer diameter	Tube	Approximate weight	Maximum allowable running tension	Running tension	Calculate the ultimate tensile strength	Young's modulus	Linear expansion coefficient of
ADSS-AT	12	12.5±0.5	6	125	1.5	4	10	7.6	1.8
ADSS-AT	24	12.5±0.5	6	125	1.5	4	10	7.6	1.8
ADSS-PE	12	12.5±0.5	6	125	1.5	4	10	7.6	1.8
ADSS-PE	24	12.5±0.5	6	125	1.5	4	10	7.6	1.8

Maximum excitation voltage: 25kV (ADSS-AT);12kV (ADSS-PE)  
Note: The actual weight of the cable and the above values may have tolerances

## Central Bundled Armoured Loose Tube Cable

### Laying method

- Self-supporting overhead

### Application

- Long distance and intermediation communication

### Features

- Special compact sleeve structure design to ensure loose sleeve shrinkage
- Light weight, small diameter, reducing the load on the tower
- Optical cable has good flexibility and bending ability
- Guarantee the life of the cable over 30 years
- Accurately control the fiber length, ensure that the optical cable has good mechanical characteristics and temperature characteristics
- The loose tube material has good hydrolysis resistance and high strength. The tube is filled with special grease to protect the fiber

Operation Temperature

## Cat 6 UTP Twisted Pair Cable

### ● Features

Made of high quality imported oxygen-free copper material, low resistance to signal transmission, new PVC outer skin is thickened to prevent aging, high density HDPE inner sheath is corrosion resistant, good ductility, cross skeleton isolation reduces return loss, and transmission is more stable.

Shielding type	Unshielded	Operating temperature	-20℃~60℃
Jacket material	PVC	Maximum transmission rate	1000Mbps
Wire core diameter	0.57	Bandwidth	550Mhz
Conductor material	Copper wire core	Wire gauge	23AWG

## Cat 5E FTP Twisted Pair Cable

### ● Features

It adopts high-quality imported oxygen-free copper material, with low resistance and low signal transmission capacity. The new PVC is thickened outside the skin to prevent aging. The high-density HDPE inner sheath is corrosion-resistant and has good ductility. The twisted pair is neatly and tightly wound to reduce return loss. The transmission is more stable.

Shielding type	Shielded	Operating temperature	-20℃~60℃
Jacket material	PVC	Maximum transmission rate	1000Mbps
Wire core diameter	0.5	Bandwidth	350Mhz
Conductor material	Copper wire core	Wire gauge	24AWG

## Cat 6 FTP Twisted Pair Cable

### ● Features

Made of high quality imported oxygen-free copper material, low resistance to signal transmission, new PVC outer skin is thickened to prevent aging, high density HDPE inner sheath is corrosion resistant, good ductility, cross skeleton isolation reduces return loss, and transmission is more stable.

Shielding type	Shielded	Operating temperature	-20℃~60℃
Jacket material	PVC	Maximum transmission rate	1000Mbps
Wire core diameter	0.57	Bandwidth	550Mhz
Conductor material	Copper wire core	Wire gauge	23AWG

## 24 Port CAT 5 / CAT 6 Patch Panel

### ● Features

The front panel is made of ABS high-quality engineering plastic material, and the design is beautiful. The back cable holder is made of high-quality cold-rolled sheet material, which is detachable and more flexible. The standard RJ45 interface module can be plugged into various crystal heads to meet various compatibility needs. The patch panel supports both Category 5 and Category 6 cabling systems and complies with TIA/EIA 568a and 568b standards.

- Port number 24
- Cable type Cat6/Cat5
- Operating temperature -20℃~70℃
- Rack unit 1RU
- Terminal connection coupler
- RoHSstandard accord with
- Patch panel type Level
- Wiring standard T568A/T568B
- Colour black

## Cat 5E UTP Twisted Pair Cable

### ● Features

It adopts high-quality imported oxygen-free copper material, with low resistance and low signal transmission capacity. The new PVC is thickened outside the skin to prevent aging. The high-density HDPE inner sheath is corrosion-resistant and has good ductility. The twisted pair is neatly and tightly wound to reduce return loss. The transmission is more stable.

## Cat 6 180° FTP Keystone Jack

NMC6FV1

### Features

Module USES the compact design, ensure the cable is not affected by extrusion, reduce interference, inner flame retardant polycarbonate materials, mechanical performance is stronger, shielded enclosure is made of stainless steel material, durable, good shielding effect, standard card installed in size and convenient to all kinds of type 86 network panel, distribution frame device, such as copper plating pin needle by PBC circuit derivation, guarantee the stability of the link to reduce crosstalk influence on data, the module USES conform to UL, CE, ETL, ROHS international standard production process.

Item	Numerical value
Rated voltage	125 VAC RMS
Rated current	1.5 AMP
Contact resistance	100 MILLIOHMS MAX
Insulation resistance	1000 MEGOHMS MIN @ 500 VDC
Dielectric strength	750 VAC RMS 60Hz, 1MIN

## Cat 5e 90° UTP Keystone Jack

NM5EUV1

### Features

Module USES the compact design, ensure the cable is not affected by extrusion, reduce interference, inner flame retardant polycarbonate materials, mechanical performance is stronger, shielded enclosure is made of stainless steel material, durable, good shielding effect, standard card installed in size and convenient to all kinds of type 86 network panel, distribution frame device, such as copper plating pin needle by PBC circuit derivation, guarantee the stability of the link to reduce crosstalk influence on data, the module USES conform to UL, CE, ETL, ROHS international standard production process.
